

Environmental Policy

Asplundh New Zealand is committed to conducting its business in a manner that recognises the importance of environmental protection and sustainability. We are committed to minimising environmental impacts in all facets of our operations by:

The objectives of our Policy are:

- To comply with all applicable laws, regulations and statutory obligations relating to environmental issues.
- Establishing and reviewing meaningful and accurate environmental key performance indicators and
 1. Communicating them appropriately at all levels throughout the organization.
 2. Taking appropriate action to improve performance.
- Managing environmental and related issues in accordance with any client / contract specific requirements, policies and procedures
- Maintaining, monitoring, reporting, reviewing, auditing and continually improving the Environmental Management System and programs that are consistent with the certification requirements of AS/NZS ISO 14001
- Providing sufficient and suitable resources to implement and maintain the Environmental Management System
- Applying waste minimisation strategies to all facets of our operations
- Taking all practicable steps to prevent pollution and other adverse effects resulting from our operations.
- Educating and training our people to continually improve awareness, skills and knowledge of environmental issues and practices
- Identifying, reporting, investigating and resolving all environmental incidents and non-conformances
- Pursuing Ecologically Sustainable Development initiatives and programs that are consistent with current technical knowledge. Communicating regularly with community groups and key stakeholders on issues relating to the environment.
